I am so proud and thankful for Senator Dockery's success. We in Winter Park owe the hope of future tranquility of our small city to Paula's success. We owe a huge debt of gratitude for what she has accomplished. In 2006 the National Preservation Online magazine listed Central Park in Winter Park as an threatened resource due to the proposed development of massive condos around it. We are hopeful that we can preserve this resource for future generations. Certainly the absence of a commuter rail stop will make that goal more achievable. Thank you, Senator Dockery.
